

# Mohamed Elazzouzi

## PERSONAL DETAILS

Date of Birth: 14.06.1996

Address: Marrakech db mulay mehdi 18 riad salam

Telephone: +212 629 539 588

E-Mail: med.elazzouzi.97@gmail.com

Portfolio Website: [mohamed-elazzouzi-portfolio.vercel.app](https://mohamed-elazzouzi-portfolio.vercel.app)

## PROFESSIONAL EXPERIENCE

06.2023 - Present

### DIGITALPOLE

#### Software Developer

- Develop full-stack web and mobile applications
- Containerize applications using Docker and manage deployments
- Configure Nginx for application hosting and routing
- Build and consume RESTful APIs
- Work with services such as Elasticsearch
- Use Git for version control and Linux-based environments
- Write shell scripts and manage cron jobs for automation tasks
- Wrote shell scripts, managed cron jobs, and implemented CI/CD workflows for automated builds and deployments.
- Monitor applications, fix data issues in databases, and resolve server problems
- Collaborate using Jira, Confluence, and Bitbucket for project management and code versioning

01.2023 - 06.2023

### SELF-EMPLOYED / FREELANCE

#### Software Developer

- Development and maintenance of web and mobile applications
- Application deployment and containerization with Docker
- API development and integration
- Linux-based development, scripting, and automation
- Troubleshoot and fix data issues in databases
- Continuously learning and exploring new technologies to enhance development skills

06.2022 - 12.2022

### SMART INFLUENCER

#### Internship - Full-Stack Web Developer

- Developed, maintained, and improved existing web applications.
- Handled data import/export processes and developed dynamic data visualizations
- Built and consumed RESTful APIs
- Use Git for version control and Linux-based environments

03.2022 - 05.2022

### IT LABS PRO

#### Internship - Full-Stack Web Developer

- Developed a web support application to manage user requests
- Implemented real-time ticket updates with Pusher and WebSockets
- Improved user experience through instant notifications

---

## EDUCATION

10.2020 - 11.2021

### **FST – FACULTY OF SCIENCE AND TECHNOLOGY, CADI AYYAD, MARRAKECH**

#### Distributed Computer Systems

- Web and Java application development
- Databases and distributed systems
- Computer networks
- Software architecture and project management
- Final-year internship and project

09.2016 - 09.2018

### **OFFICE OF VOCATIONAL TRAINING AND EMPLOYMENT PROMOTION, MARRAKECH**

#### IT Systems and Network Technician

- Fundamentals of information systems and IT environments
- Applied mathematics and structured programming
- Web and event-driven application development
- Linux operating systems and workstation setup
- Computer networks, routing, switching, and network administration
- Server installation and network services (DNS, DHCP, Web, etc.)
- Network security basics and system troubleshooting
- Database and distributed systems concepts
- Project planning, documentation, and professional communication
- Final-year project and professional internships

---

## ADDITIONAL TRAINING

05.2019 - 10.2020

### **SELF-LEARNING / PERSONAL PROJECTS**

#### Lua Programming & Scripting

- Learned programming by creating Lua scripts for automation projects
- Explored game mechanics and logic design through personal projects
- Practiced problem-solving, debugging, and scripting independently

03.2022 - 04.2022

### **AMAZON WEB SERVICES (AWS)**

#### Certificate of Completion

- Cloud computing training

03.2019 - 04.2019

### **1337 CODING SCHOOL, BENGUERIR (MOROCCO)**

#### Computer Programming & Software Development

- Participated in an intensive project-based program
- Learned coding, problem-solving, and software engineering through peer learning

---

## ADDITIONAL KNOWLEDGE

### **Language skills**

- Arabic (Native)
- English (Upper-Intermediate)
- French (Intermediate)
- German (Elementary)

### **Hobbies**

- Reading manga
- Watching TV series
- Gym workouts
- Hiking

### **Driver's License**

27.12.2018 Class B
